

# Active Risk Management

## TRANSPORTATION & LOGISTICS

### Drive Productivity & Insights

- Increase workforce utilization while minimizing claim frequency and severity
  - Enable mobile access for field teams with real-time, optimized insights
  - Visualize and track claims across geographies in a centralized platform
- 

### Reduce the Cost of Risk

- Identify potential hazards to prevent accidents and supply chain disruptions
  - Establish better carrier rate negotiations through improved safety metrics
  - Promote a culture of safety and accountability across your business
- 

### Unlock New Revenue

- Minimize financial impact of incidents, delays, and damage to goods
  - Win more higher-valued contracts through demonstrated risk management
  - Build resilient claims and safety processes that scale with your business
- 

Contact Nimble Global today to implement Active Risk Management and transform your oil and gas operations.
